Thruvision Group plc

First UK subscription sales under "Screening as a Service" model

Thruvision Group plc (AIM: THRU), a leading provider of walk-through security technology ("Thruvision" or the "Company" and, together with its subsidiary undertakings, the "Group"), announces that it has secured its first UK subscription sales under its "Screening as a Service" model.

In November 2025, the Company launched "Screening as a Service", a flexible subscription-based offering that enables customers to access Thruvision's advanced screening solution, including support and training, for a fixed monthly fee. The initiative was designed to remove the need for significant upfront investment enabling organisations across the UK to deploy Thruvision's proven security solutions quickly and cost-effectively.

These initial orders mark a significant milestone in the roll-out of the subscription model and underscores growing customer demand for more flexible procurement solutions.

Victoria Balchin, CEO of Thruvision Group plc, commented:

"We are delighted to secure our first UK subscription sales under the Screening as a Service model. This milestone highlights clear market demand for a more flexible and accessible route to deploying our technology and reinforces our decision to expand our commercial offering. By removing the requirement for upfront investment, we are broadening access to Thruvision's proven screening capability to a wider range of organisations to enhance their security infrastructure."

About Thruvision

Thruvision is a leading international developer, manufacturer and supplier of walk-through security technology. Its technology is deployed in more than 30 countries around the world by government and commercial organisations in a wide range of security situations, where large numbers of people need to be screened quickly, safely and efficiently. Thruvision's patented technology is capable of detecting concealed metallic and non-metallic objects in real time using an advanced AI-based detection algorithm. The Group has offices and manufacturing capabilities in the UK and US.

Important information

This announcement may include statements that are, or may be deemed to be, "forward-looking statements" (including words such as "believe", "expect", "estimate", "intend", "anticipate" and words of similar meaning). By their nature, forward-looking statements involve risk and uncertainty since they relate to future events and circumstances, and actual results may, and often do, differ materially from any forward-looking statements. Any forward-looking statements in this announcement reflect management's view with respect to future events as at the date of this announcement. Save as required by applicable law, the Company undertakes no obligation to publicly revise any forward-looking statements in this announcement, whether following any change in its expectations or to reflect events or circumstances after the date of this announcement.

About Reach announcements

This is a Reach announcement. Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases into the public domain. Information required to be notified under the AIM Rules for Companies, Market Abuse Regulation or other regulation would be disseminated as an RNS regulatory announcement and not on Reach.
