**About Thruvision**

Thruvision Group plc is a specialist provider of people-screening technology. Using patented passive terahertz technology, Thruvision is uniquely capable of detecting metallic and non-metallic threats including weapons, explosives and contraband items that are hidden under clothing, at distances up to 10m. Addressing the growing need for fast, safe and effective security, Thruvision has been vetted and approved by the US Transportation Security Administration. More than 200 units have been deployed worldwide over the last five years for applications including mass transit and aviation

security, facilities and public area protection, customs and border control and supply chain loss prevention. [www.thruvision.com](http://www.thruvision.com)
