

CORPORATE GOVERNANCE

The Board recognises that applying sound governance principles in the running of the Group is essential. The Company has adopted the QCA Corporate Governance Code. An explanation of how the 10 QCA Corporate Governance Code principles are applied by the Company is set out below:

Establish a strategy and business model which promote long-term value for shareholders

The long-term aim of the Company is to be the world leader in passive people screening technology. This aim is underpinned by world class technology with suitable patent protection and growing worldwide acceptance of the technology.

The Company's business model and strategy are set out in its latest **annual report** ("Annual Report"). In addition, the principal risks and uncertainties identified by the Board to the successful delivery of the Company's strategy, together with the principal controls in place to mitigate those risks, are set out on pages 7 to 9 of the **Annual Report**.

The Board reviews the Company's risk register at least three times a year as part of the external audit and annual and interim accounts processes.

Seek to understand and meet shareholder needs and expectations

The Company is committed to maintaining good relations with all its shareholders through the provision of interim and annual reports, other trading statements and the Annual General Meeting ("AGM").

A formal Board and committee evaluation process was undertaken in 2019 and will be repeated later in 2020.
