

**RNS**

13 December 2022

**Thruvision Group plc**  
**(“Thruvision” or the “Company”)**

**Blocklisting update**

Thruvision (AIM:THRU), the leading provider of “safe distance” people-screening technology to the international security market, today announces that an application has been made to the London Stock Exchange for the blocklisting of 196,650 ordinary shares of 1p each (“New Ordinary Shares”).

The New Ordinary Shares will be issued from time to time pursuant to the exercise of employee share options under the Thruvision Group plc Sharesave Scheme.

On exercise, these shares will be issued credited as fully paid and will rank pari passu with the existing ordinary shares in issue. It is expected that admission will be granted on 16 December 2022.

An update to its blocklisting application is given below and on the assumption that the 195,650 shares are admitted on 16 December 2022.

Name of Company:	Thruvision plc
Name of Scheme:	Thruvision Group plc Sharesave Scheme
Balance of Ordinary 1p shares under the Scheme at 8 June 2022:	Nil
Number of Ordinary 1p shares issued under the Scheme during the period:	195,650
Number of Ordinary 1p shares cancelled under the scheme during the period:	Nil
Balance of Ordinary 1p shares under the Scheme at 15 December 2022:	195,650

At 13 December 2022 the total number of Ordinary Shares in issue with voting rights is 147,165,718.

No Ordinary Shares are held in treasury.

The above figure of 147,165,718 Ordinary Shares in the Company carrying voting rights may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in the Company under the FCA's Disclosure and Transparency Rules.

**About Thruvision**

Addressing the urgent need for "safe distance" people security screening in the COVID era, Thruvision is uniquely capable of detecting metallic and non-metallic items including weapons, explosives and contraband items that are hidden under clothing, at distances between 3 and 10m. Using patented passive terahertz technology, Thruvision completely removes the need for physical "pat-downs" and has been vetted and approved by the US Transportation Security Administration for surface transportation. Operationally deployed in 20 countries around the world, Thruvision is used for aviation security, retail supply chain loss prevention, customs and border control, and public area security. The company has offices near Oxford and Washington DC.
